

Work Plan

The Office of Inspector General's (OIG) Work Plan sets forth various projects to be addressed during the fiscal year by the Office of Audit Services, Office of Evaluation and Inspections, Office of Investigations, and Office of Counsel to the Inspector General. The Work Plan includes projects planned in each of the Department's major entities: the Centers for Medicare & Medicaid Services; the public health agencies; the Administrations for Children & Families; and Administration on Aging. Information is also provided on projects related to issues that cut across departmental programs, including State and local government use of Federal funds, as well as the functional areas of the Office of the Secretary of Health & Human Services (HHS). Some of the projects described in the Work Plan are statutorily required, such as the audit of the Department's financial statements, which is mandated by the Government Management Reform Act.

OIG does not provide additional details on jobs to be undertaken or information on the status of jobs contained in its Work Plan. For example, although estimated issue dates are provided in the Work Plan, we would not provide revised estimates or current status.

Fiscal Year 2016 HHS OIG Work Plan

The HHS Office of Inspector General (OIG) Work Plan for Fiscal Year 2016 summarizes new and ongoing reviews and activities that OIG plans to pursue with respect to HHS programs and operations during the current fiscal year and beyond. The Work Plan describes the primary objectives and provides for each review its internal identification code and the year in which we expect one or more reports to be issued as a result of the review. When reports are issued, they are posted to OIG's website. OIG's [email list](#) subscribers automatically receive notification when new reports are posted to the website.
