JANUARY 2017

PHYSICIAN PRACTICE START-UP SYSTEM RESOURCES

Peak Performance Physicians, LLC assists both hospital affiliated and private medical practices with respect to the implementation of our Physician Practice Start-up System for new physicians relocating to your community. Since we are currently scheduling physicians regarding new practice start-ups for Calendar Year 2017, we would be pleased to assist you with physicians who may be relocating later this year.

Our Physician Practice Start-up System involves a turnkey approach to ensure that all of the logistical and operational components involved in a medical practice are properly implemented. A recent study indicated that 50% of physicians leave their first position after the first two (2) years in practice! Since the number two reason physicians choose to leave a practice setting is due to the fact that their practice was not properly established (incidentally, the number one reason is spouse dissatisfaction), our system ensures that the physician practice will be successful from both an operational, financial and compliance standpoint. Indeed, hospitals should offer new physicians a formal Physician Practice Start-up System as part of their overall Physician Recruitment and Retention Program.

For more information regarding our Physician Practice Start-up System, or to request a copy of our 19 page Physician Practice Start-up System Checklist, please contact:
