

## *Option 1*

### **Who is Physicians Proviso (P2)?**

Physicians Proviso (P2) is a Physician organization that has been created to address the needs of independent Physicians in the ever-changing landscape of healthcare. Our mission to assist the Physician is three fold: maximize revenue, reduce risk and increase control. P2 has partnered with reputable and successful companies to provide products and services for the P2 member. These products and services have allowed the P2 member the freedom and flexibility to do what they have always wanted to do, help patients. P2 is committed to helping the Physician remain independent today and into the future.

### **Why P2?**

The Healthcare industry has undergone and continues to undergo a vast amount of change. Physicians are finding that they have to deal with a host of issues that affect their practice, including new regulations, EMR integration and new payment models. For the Physician who is still in private practice, dealing with these issues can be time consuming, which is where P2 brings real value.

### **How can P2 help?**

P2 has vetted and contracted with partner companies that provide valuable products and services for Physicians to improve patient care and outcomes while adding income to the bottom line of their practice. Pretty straight forward! In addition to products and services that will improve patient outcomes and increase revenue, P2 is building a network of advocacy in local, state and federal government. Being your advocate is our top priority as we strive to create and support legislation that benefits the Physician. Physicians need a voice in government and P2 wants to be that voice for you!

### **How can you participate?**

Physicians are among the hardest working professionals there are, so more hard work is not the answer. P2 can help you work smarter from a business standpoint. Once you have decided that you have had enough of the status quo, make the decision to join P2 and take control of your future. Simply go to [www.physiciansproviso.com](http://www.physiciansproviso.com), click the Join P2 link and fill out the online application form.

Joining P2 is free; your only obligation is to incorporate the services offered by P2 into your practice. It's simple, really—but nothing will change unless you do!

## Option 2

### **Physicians Proviso (P2) an Independent Physician Organization**

Physicians Proviso (P2) is a physician organization exclusively for the independent physician. The independent physician is a dying breed and our goal is to be their advocate to help them increase the control they have over their practice, reduce their medical and legal risk and maximize their practice revenue. To help shape a positive future for the independent physician, P2 will strive to create and support legislation that benefits the physician in local, state and federal government.

P2 has also partnered with reputable and successful companies to provide products and services for the P2 member to improve patient care and outcomes while adding income to the bottom line of their practice. These products and services have allowed the P2 member the freedom and flexibility to do what they have always wanted to do, help patients! P2 is committed to helping the Physician remain independent today and into the future.

Physicians are among the hardest working professionals there are, so more hard work is not the answer. P2 can help you work smarter from a business standpoint. Once you have decided that you have had enough of the status quo, make the decision to join P2 and take control of your future. Simply go to [www.physiciansproviso.com](http://www.physiciansproviso.com), click the Join P2 link and fill out the online application form. Joining P2 is *free*; your only obligation is to incorporate the services offered by P2 into your practice. It's simple, really—but nothing will change unless you do!
