

We understand the challenges Rural and Community Hospitals face when it comes to long-term commitments from Physicians and Providers. Compensation plays a key role in Recruitment, Retention and Compliance. The Department of Justice (DOJ) continues to issue millions of dollars in fines and penalties due to improper Compensation Arrangements, so hospitals are required to have current Fair Market Value (FMV) Compensation Letters on file. Excessive Compensation Arrangements violate the Anti-Kickback Statute, Stark Law and False Claims Act, so we make sure you and your staff are protected.

Peak Performance Physicians is the preferred resource for FMV Compensation Opinion Letters for TORCH member hospitals. We provide the most current data to ensure evaluation of your Physicians and Providers is done fairly, accurately, and that compensation is in accordance with the National and Regional regulations. Peak Performance Physicians is one of only thirty (30) companies Endorsed by the Board of TORCH Management Services, Inc. (TMSI).

Please contact me directly regarding your FMV Compensation Opinion Letter requirements.
